

**ID
scanner**
scan IDs and
business card and
organize your
contacts

Features & Benefits

- The ID scanner is a state-of-the-art business card management solution to create and update your electronic address book. The scanner, small and light, allows you to scan cards wherever you are. It scans in color and connects via a USB port: a simple plug and play is enough to start the scanning.
- The ID scanner is a state-of-the-art card management solution to create and update your electronic address book, through business cards and ID's.
- ID scanner, is the new version of I.R.I.S.'s powerful contact organizer. In seconds, it analyzes the information cards contain and

sends it to the right fields of the database. All the data concerning your contacts - company, first name, last name, address, e-mail, etc. - are encoded with no effort!
